*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus,) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *) that the Vessel has been built with loose plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Ship, imperilling the Ship's safety. *The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surve periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery req at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspec and to the satisfaction of the Society's Surveyors. Ships repaired at ports where there is no Surveyor to this Society, must be surveyed by one of the Society's Surve at the earliest opportunity.

The *Date of Survey* of a ship only certifies to the efficiency thereof at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is he intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, with the Owners, Masters, or Agents.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, */A) that the Vessel has been built with plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—As*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, ...82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asp*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with the plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that at date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn at non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey, B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3.82) indicates that, at date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Angle*

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships repaired at ports where there is no Surveyor to this Society, must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (◯ over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (◯) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Sup*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3.82) indicates that, at date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.82) indicates that the Class was withdrawn at non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surve periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery rep at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspec and to the satisfaction of the Society's Surveyors. Ships repaired at ports where there is no Surveyor to this Society, must be surveyed by one of the Society's Surve at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is he intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, with the Owners, Masters, or Agents.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of Ship, imperilling the Ship's safety. *The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, $\overline{3,82}$) indicates that, at date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, $\overline{3,82}$) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad △, that the Vessel is built of Iron. The note * (thus, *△) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn at non-compliance, at that date, with the Society's Rules. The broad △, that the Vessel is built of Iron. The note * (thus, *△) that the Vessel has been built with less plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkhds. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors dically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required rts where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection o the satisfaction of the Society's Surveyors. Ships repaired at ports where there is no Surveyor to this Society, must be surveyed by one of the Society's Surveyors e earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby ated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests the Owners, Masters, or Agents.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3.82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with Lowmoor plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⏃, that the Vessel is built of Iron. The note * (thus, *⏃) that the Vessel has been built with plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Com.—Cemented. Asp.—*

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surv periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery req at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspe and to the satisfaction of the Society's Surveyors. Ships repaired at ports where there is no Surveyor to this Society, must be surveyed by one of the Society's Surv at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is he intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, with the Owners, Masters, or Agents.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots * * * indicate that the Vessel one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3.82) indicates that, date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with l plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a S Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Aspha*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. dry.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withheld non-compliance, at that date, with the Society's Rules. The broad ⌓, that the Vessel is built of Iron. The note * (thus, *⌓) that the Vessel has been built with plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—*

In Column 13 three dots ••• indicate that the Vessel one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Srp.—*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⌒, that the Vessel is built of Iron. The note * (thus, *⌒) that the Vessel has been built with plating thicker than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 13 three dots ••• indicate that the Vessel one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of Ship, imperilling the Ship's safety. The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—A*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Ship, imperilling the Ship's safety. *** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surv periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery re at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspe and to the satisfaction of the Society's Surveyors. Ships repaired at ports where there is no Surveyor to this Society, must be surveyed by one of the Society's Surv at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is h intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, with the Owners, Masters, or Agents.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3.82) indicates that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, * ⩓) that the Vessel has been built with plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Lrp.—L*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with plating than the Rules now require. A ring in red (©) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn at that date, with the Society's Rules, for non-compliance. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with plating thinner than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3.82) indicates that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—*

The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with plating than the Rules now require.
